ARRIVAL.-The mother of Edwin J. Lathrop, the returned prisoner of the 5th Michigan Cavalry, who died at the Home on Wednesday, arrived in this city yesterday morning. She will to-day remove the body of her son to her home in Concord, Michigan.

RECRUITING.-Very little recruiting was done at the Provost Marshal's office yesterday. Five men were examined, and all passed. Three recruits were mustered, two of them credited to Olmsted and one to

Carrain Collins .- We are happy to ansounce that Captain Collins is steadily improving. He is now considered out of danger, although very feeble as yet. His wife arrived from Murfreesbure, Tennessee, on Wodnesday night

TRAVEL RESUMED .- The damage inflicted by the great freshet upon the New York Central, Eric and A. & G. W. Railways baying been made good, trains are now running once more, as usual, from Dunkirk, Buffelo and Salamanca to New York.

That class in our city need land audiences, whenever he may choose public sympathy just now. or be invited to address them.

Fastions for Spaine,-The few days of The most notable event to purchasers of Dry Goods, has been the opening of spring Cloaks and Mantles by E. I. Baldwin & Co. The enormous stock and elegance of their styles astonish every one, and crowds of buyers attest the correctness of the taste exhibited. We noticed specially some very jaunty and stylish sacques made from the new Scotch Tweeds, designed for young ladies, which our accompanying female (not so young,) was going in raptures over, some silk Mantles (price, in the hur. ireds) which were decidedly regs! in magsificence, but far too expensive for our limited purses. sived yesterday a letter from a friend in McClintocksville, Venango county, Pa., descriptive of affairs in that section at the hight of the flood. From it we glean a few toms of general interest. It runs: Property in this region is being destroyed by the million. Oil Creek has overflowed its confines and covered the flats for miles around. Barges, derricks, engine-houses, tanks and barrels filled with oil, crude and refined, are rushing down stream, sweepng every thing before them. The build ng in which I write is completely isolated by the deluge. Small boats are being contructed for highways. The oldest inhabitants state that the flood exceeds any previously known here.

LATER. - Families are being removed from their houses, or are climbing into the chambers. There is great destruction of property and loss of life in Qil City. One woman and three children were drowned there last night, and it is feared that several more But few barrels of oil are left in the city. There is only one well in operation on Oil Oil Company. The whole supply of oil for Spring shipment has been swept clean from the boards in Venango county. A gentleman fresh from Oil City states that every warehouse has been swept from the levee. ver one hundred horses have been drowned. People are shooting them in stables to prevent their meeting a worse fate from starvation and freezing. The water must soon begin to fall.

EXLISTMENTS UNDER THE NEW ORDER.—Un for the instructions just received by Col. Wilcox, A. A. Provost Marshal General of this State, it appears that aliens, not liable to enrolment, minors, and veterans who have been two years in the service and therefore exempt from draft, can be credited to any locality they may select.

Section 14 of the act of March 3d, 1865, requires that volunteers, substitutes, and representative recruits shall be credited to the sub-district where they belong by actial residence, and where they were or shall be enrolled. It therefore applies only to enrolled men (or men who ought to be enroll d,) and if a man has an actual resiience, but is not liable to enrolment, he can select his place of credit as heretofore. f a man resides in one locality and is encolled in another, he must be credited to his place of residence. The State is already credited, up to Mon-

day evening, with 19,259 men, which leaves THE DRAFT IS COMING.—The officials at the

Provost Marshal's office received a tele-"Are you still correcting the enrolment!

Can you be ready to draft by the 28th inst.? Answer immediately." A dispatch to this effect was returned :

We are all ready to begin the draft." As they have received no word since, the ference is that the draft in the Eighteenth District will begin next Tuesday. Subdistricts had better bestir themselves. They have time, many of them, to escape the fate that impends. We refer township and ward committees to an article in our local dumns this morning, concerning enlistments under the new order. It is to be oped that this new "instruction" will On all the principal cities in the country stimulate recruiting throughout the Disfor sale at the Cleveland Post Office at the trict. A little more energy will carry us safely through.

LOSSES BY FIRE.-Mr. Bradley estimates his loss in the Wednesday night fire at \$1,000. Thore was no insurance. As there was but little in the basket shop, where the fire is supposed to have originated, the loss there was trifling. We have not been able to learn the amount of damage done a member of the Agricultural Implement | Carriage, Lumber Wagen, Harness, to the grocers, Messrs. Waish and McMs- Manufacturing firm of C. Aultman & Co., of hon, nor whether they were insured. The Canton and Akron, died of consumpti ported at \$1,200. A considerable amount of his stock was saved. The boarding house kept by Mr. E. Frezell was not a little dam aged. The exposed side must needs be reclapboarded, and half the roof renewed. It is stated on good authority that there had been no fire in the basket shop for a fortnight, and that the fire must have been

an incendiarism, PROBABLE RESURSECTION OF THE PLAIN DEALER.-It is altogether probable that the Cleveland Plain Dealer, which has been suspended since the 7th inst., will be speedily revived. Mr. John S. Stephenson, the former Administrator of the estate of J. W. Gray, deceased, resigned his trust yesterday, and General A. S. Sanford was appointed Administrator in his stead, by udge D. R. Tilden. The General will probably be qualified to day, and we may very soon be called upon to note the fact that this old Democratic journal of Northern Obio has availed to revisit the glimpses of the moon, nay, to brave the light of open

day. HUN-KI-DO-Rt.-The Sandusky Register says: "By referring to our advertising celumus it will be seen that Mr. Griswold, better known as the 'Fat Contributor,' will deliver his lecture, entitled 'Hun-ki-do-ri,' at Norman Hall, on Tuesday evening. On Tuesday of that week a young man named Charles Wilson, of Philadelphia, was in the house of Mrs. Shorts, conversing with her | Yard 151 River street. [m18:195] A. C. HANSOM. daughter Hattie. Wilson, having a shotgun in his hand, pointed it at the girl, making a careless remark to her, to which she replied in like humor; Wilson fired the gun, the shot taking effect in the back of the unfortunate Hattie, making a frightful wound and causing her death in about half an hour. The clothing about the wound was burned away, the weapon being so near her person, and some of the shot passed entirely through her body. Wilson was nearly frantic for a time. An inquest was held over the body of the deceased, and a vardict returned of death from acci dental shooting.

TRUMBULL COUNTY .- The Western Reserve Chronicle says that Mr. John Price, a highly respectable citizen of Brookfield, com mitted suicide, one day last week, by hanging himself. Mr. Price had for some tim been subject to mental derangement, and it was while in this situation, the deed was committed. His remains were taken to Champion, his former residence, and there nterred on Monday last. SUMMIT COUNTY .- Th Akron Beacon say

MORNING LEADER OFFICE, 1 Transact Eventus, March 10, 1863.]
As we anticipated and so expressed in our less this murning, the effort made yesterday to pro duce a re-ction in grid, and which for a 'ime wa zone ful, cou'd not be maintained, and though sores of speculators were staggering from th decline prompitated upon them, they were as a from the rature of things must continue to be uterly helpless to stay the downward tide. Not one are the military influences all against them, but the commercial position also, which finds thru in possession of immense stocks without a market sumulated and hold when the extrepoles of the tion were least promising, and when it seemed equally safe, in a pecuniary point of visw, to oper sic against as in favor of the Government. The present state of things presents the anomaly of a prople apparently growing poorer upon the appreciation of their currency, and seeking safety in the destruction of their credit. The les on it innicates against speculation is not only of the most

mportant, but rolemn character.
Our dispatches to night report the excitement in New York to-day as ranning very high, holders of everything being anxious to sell at any prica. Go'd sank away steadily and surely, dragging down with it everything it could affect, and the competition for lower prices was the order. About the only exception to this slate of things were Govern ments, the large decline in which brought fo ward a heavy demand from all sections of the country, nier which the warket railied, but subseque lost a portion of the advance. Rallway and Mis ce.laneous Stocks worked very panicky as the day asymmetry, and lost heavily, with eager sollers. In ommercial affairs the sympathy in the ge era movement was marked, though perhaps less prepitate. Gold ciosed weak and fer rish at 13644. The local money market is without notal bacgs. CRIBING ALL SYMPTOMS. SYMPTOMS:
The symptoms of Catarch, as they generally appear, are at first very slight. Persons find they have a read, that they have frequent attacks, and tre more sensitive to the changes of temperature, in this condition, the noce may be dry, or a slight tischarge, thin and acrid, alterwards becoming thick and adherive. As the disease becomes chronic the discharges are increased in quantity and shanged in quality; they are now thick and beary and are hawked or coupled off. The secretions are allowed, and the same are allowed, and the same are allowed, and the same are the secretions are allowed, and the same are the secretions are allowed, and the same of the smell in lessened or destroyed; deafness frequestly takes place. Another common and important symptom of Catarth is, that the person is obtiged to clear his threat in the merating of a thick or disay mucus, which has fallen down from the bead luring the night. When this takes place the purson may be cure that his disease be on its way to the lungs, and should lose no time in arrosting it.
